Pricing & Transparency

Our goal is to provide meaningful and reliable information to help you understand prices in advance of your visit.

Transparency

Effective January 1, 2021, CMS requires hospitals to make available a list of their current standard charges, cash prices of services for self-pay and uninsured patients, insured patient out-of-pocket pricing on a select group of common services, payor specific contract rates for services and the de-identified minimum and maximum contract rate for each service. The information provided below is intended to meet the requirements of the CMS regulation. Actual charges on the final bill, and corresponding patient out-of-pocket pricing, may vary for a variety of reasons which may include the patient's medical condition, additional tests or procedures, unknown circumstances or complications, final diagnosis, treatment ordered by the attending provider and care received.

Please be advised that while we attempt to estimate the cost of care as accurately as possible, there may be significant variations between the estimate provided and the price reflected on your final bill.

The pricing only covers the specific service listed and provided through Eastern Plains Medical Clinic and does not provide pricing in situations where services are provided by healthcare providers and or facilities who are not employed by Eastern Plains Medical Clinic. Please contact them directly for price information associated with care and services received from them.
